_____ Planning and Zoning Director	not valid without red stamp

Date _____ Not on Lake _____ On Lake (name) _____
Property Address: _____ LRK: _____
Property Owner: _____ Phone: _____
Contractor: _____ Phone: _____
Contractor Address: _____

Approval of this application serves as authorization to install an irrigation system using lake and/or public water as shown on the attached plan. Moore County requires a stamped permit and irrigation plans that ensure the system does not encroach on septic lines or fields.

Chapter J-II-5. Use of Lake Water for Irrigation

- a. No system using water from the lakes for irrigation of private property shall be placed in operation without obtaining a permit.
- b. The Village may ban or restrict use of water for irrigation during water emergencies.
- c. Delivery of water by any permit holder to any party not holding a permit is prohibited.

All permit applications must show the following:

- a. Sketch or drawing showing location/layout must be submitted prior to issuance of permit.
- b. Owner/Contractor must ensure that all irrigation lines are NOT within the public right-of-way and will NOT impact any existing septic tanks or lines.

Note: For residents that irrigate from the lakes a current phone number or email address must be on file with Village Hall. When spraying herbicide, in times of drought, or during lake drawdown the person responsible for the irrigation system will be contacted.
